DETAILED ACTION

This action is in response to Applicant's amendment filed September 10, 2007. Claims 1-3, 15-17 and 29-31 have been cancelled. Claims 4-14, 18-28 and 32-42 are pending in the present application.

This application has been reassigned to another examiner. The examiner has carefully evaluated the instant claims in view of the prior art. The examiner has conducted a new and careful search of the pertinent prior art areas and presents herein an examination of the claims in view of the newly discovered prior art references. The instant office action is made non-final in order that Applicant may properly respond on the record and submit any necessary amendment to the claims.

Information Disclosure Statement

The information disclosure statement filed September 10, 2007 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Interview Summary

On September 11, 2007, Applicant's representative Michael Cannatti (Reg. No. 34,791), authorized Examiner to amend claim 32 to recite "computer readable storage medium" to overcome the 101 rejection by Examiner's amendment.

On November 19, 2007, Examiner has made another phone call to Applicant's representative, notifying Applicant that there was a 112 issue in the independent claims, therefore the application cannot be allowed. Applicant agreed to look into the issues and make necessary amendment.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The preamble of claim 32 is hereby amended to read: a computer program product in a computer readable storage medium ...

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4-14, 18-28 and 32-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 4-14, 18-28 and 32-42 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01.

Regarding independent claims 4, 18 and 32, the claims recite, "receiving a first response message at a first computing device..." It is unclear as to how a response is received without a request.

Allowable Subject Matter

The indicated allowability of claims 4-14, 18-28 and 32-42 is withdrawn. However, these claims would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
